

RIPON SELECT FOODS LTD

A Health Record and Health Surveillance.

This questionnaire has been instigated mainly as a requirement under the Control of Substances Hazardous to Health 1994 (COSHH). However, it also serves as an employee's basic health record.

In this workplace substances are in use which have been known to cause allergic chest problems. Following the risk assessment under the Control of Substances hazardous to Health 1994 (COSHH) Regulation 6, management have decided to carry out a programme of pre-exposure and periodic health surveillance COSHH 1994 Reg. 11 (2b).

In some cases further advice may be required from the company occupational health adviser.

I understand that a programme of health surveillance is necessary in this employment and will form part of management health records.

Signature of employee..... Date

Signature of responsible person (RSF)..... Date

Referred for further investigation YES/NO

Have you previously had a company medical examination? YES/NO Date
